

SAFETY DATA SHEET

SECTION 1 Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

- Product Name: Palatine Emulsion Paint (Truflat, Supercote, Trumatt and Trusheen)

1.2 Relevant identified uses of the substance or mixture and uses advised against

- Use of the substance/mixture: Decoration of Interior walls and Ceilings. Applied by brush, roller and spray by consumer or professional applications.

1.3 Details of the supplier of the safety data sheet

- Name of Supplier: Palatine Paints & Chemicals Ltd
- Address of Supplier: 55 Smallbrook Lane,
Leigh, Lancashire.
WN7 5EW
- Telephone: 01942 884122
- Responsible Person: Product SHE Information Manager
- Email: Safety@palatinepaints.co.uk

1.4 Emergency telephone number

- Emergency Telephone: 01942 871210 (Not 24hrs)

SECTION 2 Hazards identification

2.1 Classification of the substance or mixture

- CLP: The product is not classified as dangerous according to Directive 1999/45/EC and its amendment.
- CLASSIFICATION (1999/45) Not Classified
- See Section 16 for the full text of the R phrases or H statements declared above.
- See Section 11 for more detailed information on health effects and symptoms.
- Chemical Composition: A water based formulation of pigments and polymers.
- Human Health : Avoid inhalation of atomised paint during spray application.

2.2 Label elements

- Signal Word: N/A
- Hazard statements
 - Risk Phrases: This product is not classified according to EU legislation.
 - Safety phrases: S2- Keep out of the reach of children.
 - S23- Do not breathe vapour or spray.
 - S38- In case of insufficient ventilation, wear suitable respiratory equipment.
 - S46- If swallowed, seek medical advice immediately and show this container or label.
- Precautionary statements
 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting (P301+P330+P331).
 - IF ON SKIN: Wash with plenty of soap and water (P302+P352).

SECTION 2 Hazards identification (....)

Dispose of contents/container to an authorised waste collection point (P501)

2.3 Other hazards

- No hazard expected under normal conditions of use
-

SECTION 3 Composition/information on ingredients

3.1 Mixtures

SECTION 4 First aid measures

4.1 Description of first aid measures

- General Information: In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.
- NOTE TO PHYSICIANS: Treat by observation and supportive measures as indicated by the patients condition
- Inhalation: Remove to fresh air, keep the patient warm and at rest. If breathing has stopped, administer artificial respiration. Give nothing by mouth. If unconscious, place in a prone position with head to the side (recovery position) and seek medical advice.
- Ingestion If accidentally swallowed obtain immediate medical advice. Show this safety data sheet. Keep at rest. Do not induce vomiting. If conscious give milk or water to drink.
- Skin Contact: Remove contaminated clothing. Wash skin thoroughly with soap and water or use a proprietary skin cleaner. Do not use solvents or thinners.
- Eye contact: Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart, and seek medical advice.

4.2 Most important symptoms and effects, both acute and delayed

- No known significant effects or critical hazards,

4.3 Indication of any immediate medical attention and special treatment needed

- Immediate / special treatment: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
-

SECTION 5 Fire-fighting measures

5.1 Extinguishing media

- Not flammable. In case of fire use extinguishing media appropriate to surrounding conditions

5.2 Special hazards arising from the substance or mixture

5.3 Advice for firefighters

- No special precautions are required for this product
-

SECTION 6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

- Spillage causes slippery surface
-

SECTION 6 Accidental release measures (....)

- Wear protective clothing as per section 8

6.2 Environmental Precautions

- Do not allow to enter public sewers and watercourses
- If contamination of drainage systems or water courses is unavoidable, immediately inform appropriate authorities

6.3 Methods and material for containment and cleaning up

- To clean the floor and all objects contaminated by this material use water
- Soak up with inert absorbent
- Dispose of contents/container to an authorised waste collection point (P501)

6.4 Reference to other sections

SECTION 7 Handling and storage

7.1 Precautions for safe handling

- Never use pressure to empty; the container is not a pressure vessel. Always keep in the same material as the supply container. Good housekeeping standards and regular safe removal of waste materials will minimise risks of spontaneous combustion and other fire hazards. The Manual Handling Operations Regulations may apply to the handling of containers of this product. Packs with a volume content of 5 litres or more may be marked with a maximum gross weight. To assist employers the following method of calculating the weight for any pack size is given. Take the pack size volume in litres and multiply this figure by the specific gravity value given in section 9. This will give the net weight of the coating in kilograms. Allowance will then have to be made for the immediate packaging to give an approximate gross weight.

7.2 Conditions for safe storage, including any incompatibilities

- Observe the label precautions. Store between 10°C and 30°C in a dry place. Prevent unauthorised access. Containers which are opened should be properly resealed and kept upright to prevent leakage. Store separately from oxidising agents and strongly alkaline and strongly acidic materials.
- Storage Class: The storage of this product is not subject to any statutory requirements.

7.3 Specific end use(s)

SECTION 8 Exposure controls/personal protection

8.1 Control parameters

8.2 Exposure controls

- Wear eye/face protection
- Wear disposable gloves

- Occupational Exposure Controls: All personal protective equipment, including respiratory protective equipment., used to control exposure to hazardous substances must be selected to meet the requirements of the COSHH regulations.

SECTION 8 Exposure controls/personal protection (....)

- Respiratory protection: If ventilation is inadequate, suitable respiratory protection must be worn. Wear a respirator fitted with the following cartridge: Organic vapour filter.
 - Skin Protection: When skin exposure may occur, advice should be sought from the glove supplier on appropriate types and usage time for this product. The instructions and information provided by the glove supplier on use, storage, maintenance and replacement must be followed. Barrier creams may help to protect exposed areas of skin but are not substitutes for full physical protection. They should not be applied once exposure has occurred.
 - Eye / Face Protection: Eye protection designed to protect against liquid splashes should be worn.
 - Wear suitable protective clothing
-

SECTION 9 Physical and chemical properties

9.1 Information on basic physical and chemical properties

- Appearance: Pigmented Viscous Liquid
- Odour: Very small
- Flashpoint: >100 C
- Specific Gravity: 1.2 - 1.8 @ 20 C
- pH: 7 - 9
- Solubility: Completely miscible with water.
- Boiling Point/Range: 100 C
- Volatile Organic Compound Content Class A.e. Max VOC 3g/l

9.2 Other information

SECTION 10 Stability and reactivity

10.1 Reactivity

- No hazardous reactions known if used for its intended purpose

10.2 Chemical stability

10.3 Possibility of hazardous reactions

10.4 Conditions to avoid

10.5 Incompatible materials

10.6 Hazardous Decomposition Products

SECTION 11 Toxicological information

11.1 Information on toxicological effects

- The ingestion of significant quantities may cause nausea/vomiting
-

SECTION 12 Ecological information

12.1 Toxicity

SECTION 12 Ecological information (....)

- These products have been assessed following the conventional method and are not classified as dangerous for the environment but contain substances dangerous for the environment. See section 3 for details. The product should not be allowed to enter drains or watercourses or be deposited where it can affect ground or surface waters. See also sections 5, 6 and 13.

12.2 Persistence and degradability

12.3 Bioaccumulation Potential

12.4 Mobility in soil

12.5 Results of PBT and vPvB assessment

12.6 Other Adverse Effects

SECTION 13 Disposal considerations

GENERAL INFORMATION

When this coating, in its liquid state, as supplied, becomes a waste, it is categorised as non-hazardous waste, with code 08 01 12 (list of wastes). Part used containers, not drained and/ or rigorously scraped out and containing dried residues of the supplied coating, are categorised as non-hazardous waste, with code 08 01 12 (list of wastes). Used containers, drained and/ or rigorously scraped out and containing dried residues of the supplied coating, are categorised as non-hazardous waste, with code 15 01 02 or 15 01 04 (list of wastes). If mixed with other wastes, the above waste code may not be applicable.

DISPOSAL METHODS

Do not allow into drains or water courses or dispose of where ground or surface waters may be affected.

13.1 Waste treatment methods

SECTION 14 Transport information

14.1 UN Number

- UN No.: NOT CLASSIFIED AS HAZARDOUS FOR TRANSPORT

14.2 Proper Shipping Name

- Proper Shipping Name:

14.3 Transport hazard class(es)

- Hazard Class:

14.4 Packing group

- Packing Group:

14.5 Environmental hazards

- Presents no hazard to the environment

14.6 Special precautions for user

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code

SECTION 14 Transport information (....)

SECTION 15 Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

- Not hazardous according to current ADR Regulations
- Exposure Limits: Not defined in latest edition of EH 40
- National Regulations: The chemicals (Hazard information and Packaging for Supply) Regulations 2009 (SI 2009 No 716).

15.2 Chemical Safety Assessment

SECTION 16 Other information

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy themselves as to the suitability of such information for their own particular use.
