Epoxytread Single Pack Floor Paint Bases & Tints

SAFETY DATA SHEET Epoxytread Single Pack Floor Paint Bases & Tints

According to Regulation (EC) No 1907/2006, Annex II, as amended. Commission Regulation (EU) No 2015/830 of 28 May 2015.

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1. Product identifier		
Product name	Epoxytread Single Pack Floor Paint Bases & Tints	
Product code	P473 - P474 - P475	
Product size	5L - 20L - 205L	
1.2. Relevant identified uses of the substance or mixture and uses advised against		
Identified uses	Paint.	
1.3. Details of the supplier of	f the safety data sheet	
Supplier	Palatine Paints & Chemicals Limited 55 Smallbrook Lane, Leigh, Lancashire, WN7 5PZ UK +44 (0)1942 884122 (T) sales@palatinepaints.co.uk	
Contact person	Sales Department - 08.00 - 17.00 hrs Mon - Fri	
<u>1.4. Emergency telephone</u> National emergency	+ 44 (0)1942 884122 (T) - 08.00 - 17.00 hrs Mon - Fri (not 24hr)	
telephone number	0344 892 0111	

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture Classification (EC 1272/2008)

Physical hazards	Flam.	Liq.	3	-	H226
Health hazards	STOT	SE 3	- H3	336	
Environmental hazards	Not Cla	assifie	d		
2.2. Label elements Hazard					
pictograms					
A A					

Signal word

Hazard statements	EUH208 Contains NEODECANOATE ACID, COBALT SALT. May produce an allergic reaction. H226 Flammable liquid and vapour. H336 May cause drowsiness or dizziness. H412 Harmful to aquatic life with long lasting effects.
Precautionary statements	 P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P261 Avoid breathing vapour/ spray. P271 Use only outdoors or in a well-ventilated area. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P501 Dispose of contents/ container in accordance with national regulations.
Supplemental label information	EUH066 Repeated exposure may cause skin dryness or cracking.
Contains	HYDROCARBONS, C9-C11, <2% AROMATICS, HYDROCARBONS, C9, AROMATICS
Supplementary precautionary statements	P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P370+P378 In case of fire: Use foam, carbon dioxide, dry powder or water fog to extinguish. P403+P235 Store in a well-ventilated place. Keep cool.

2.3. Other hazards

This substance is not classified as PBT or vPvB according to current EU criteria.

SECTION 3: Composition/information on ingredients		
3.2. Mixtures		
DE AROMATISED WHITE SPIRI	т	10-30%
CAS number: 64742-47-8	EC number: 265-149-8	
Classification		
Flam. Liq. 3 - H226		
Asp. Tox. 1 - H304		
NEODECANOATE ACID, COBAL	_T SALT	<1%
CAS number: 27253-31-2	EC number: 248-373-0	
CAS number: 27253-31-2	EC number: 248-373-0 Classification (67/548/EEC or 1999/45/EC)	
Classification	Classification (67/548/EEC or 1999/45/EC)	
Classification Acute Tox. 4 - H302	Classification (67/548/EEC or 1999/45/EC)	
Classification Acute Tox. 4 - H302 Acute Tox. 4 - H332	Classification (67/548/EEC or 1999/45/EC)	

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

Composition comments

SECTION 4: First aid measures		
4.1. Description of first aid measures		
General information	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Never give anything by mouth to an unconscious person.	
Inhalation	Remove affected person from source of contamination. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention if any discomfort continues. Place unconscious person on their side in the recovery position and ensure breathing can take place.	
Ingestion	DO NOT induce vomiting. Get medical attention immediately. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.	
Skin contact	Remove affected person from source of contamination. Remove contaminated clothing immediately and wash skin with soap and water.	
Eye contact	Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention.	
4.2. Most important symptoms	and effects, both acute and delayed	
General information	Get medical attention promptly if symptoms occur after washing.	
4.3. Indication of any immedia	te medical attention and special treatment needed	
Notes for the doctor	No specific recommendations.	
SECTION 5: Firefighting meas	sures	
5.1. Extinguishing media		
Suitable extinguishing media	Extinguish with foam, carbon dioxide, dry powder or water fog. Do not use water jet as an extinguisher, as this will spread the fire.	
5.2. Special hazards arising from	om the substance or mixture	
Specific hazards	Toxic gases or vapours. FLAMMABLE. Solvent vapours may form explosive mixtures with air.	
5.3. Advice for firefighters		
Protective actions during firefighting	Risk of re-ignition after fire has been extinguished. Cool containers exposed to flames with water until well after the fire is out. Avoid the spillage or runoff entering drains, sewers or watercourses.	
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.	
SECTION 6: Accidental release	se measures	
6.1. Personal precautions, protective equipment and emergency procedures		
Personal precautions	Avoid inhalation of vapours and contact with skin and eyes. Provide adequate ventilation. No smoking, sparks, flames or other sources of ignition near spillage. Ensure suitable respiratory protection is worn during removal of spillages in confined areas.	
6.2. Environmental precautions		
Environmental precautions	Do not discharge into drains or watercourses or onto the ground. Contain spillage with sand, earth or other suitable non-combustible material. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.	

6.3. Methods and material for containment and cleaning up

Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near
spillage. Provide adequate ventilation. Avoid the spillage or runoff entering drains, sewers or
watercourses. Absorb in vermiculite, dry sand or earth and place into containers. Collect and
place in suitable waste disposal containers and seal securely. For waste disposal, see Section
13.

6.4. Reference to other sections

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Usage precautions Observe any occupational exposure limits for the product or ingredients. Avoid inhalation of vapours and spray/mists. Keep away from heat, sparks and open flame. Avoid spilling. Avoid contact with skin and eyes. Provide adequate ventilation. Avoid inhalation of vapours. Use approved respirator if air contamination is above an acceptable level. Do not eat, drink or smoke when using the product. The Manual Handling Operations Regulations may apply to the handling of containers of this product. To assist employers, the following method of calculating the weight for any pack size is given. Take the pack size volume in litres and multiply this figure by the specific gravity value given in section 9. This will give the net weight of the coating in kilograms. Allowance will then have to be made for the immediate packaging to give an approximate gross weight.

7.2. Conditions for safe storage, including any incompatibilities

Storage precautions	Store in closed original container at temperatures between 5°C and 25°C. Keep away from heat, sparks and open flame. Keep container tightly closed. Keep containers upright. Store away from the following materials: Oxidising materials. Alkalis. Acids.
Storage class	Flammable liquid storage. The storage and use of this product is subject to the Dangerous Substances and Explosive Atmospheres Regulations (DSEAR). The requirements are given in the HSE Approved Code of Practice and Guidance, Storage of Dangerous Substances: DSEAR. Up to 250 litres of liquids with a flashpoint above 32C but below 55C may be kept in a workroom provided they are kept in closed containers in a marked, fire-resisting cupboard or bin. Larger quantities must be kept in a separate , marked storeroom conforming to the structural requirements contained in the HSE guidance note Storage of Flammable Liquids in Containers.
7.3. Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
Specific end use(s)	Collect and place in suitable waste disposal containers and seal securely. Label the containers containing waste and contaminated materials and remove from the area as soon
Usage description	as possible.

SECTION 8: Exposure controls/Personal protection

8.1. Control parameters

Occupational exposure limits

NEODECANOATE ACID, COBALT SALT

Long-term exposure limit (8-hour TWA): WEL 0.1 mg/m³ Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, [<]

DE-AROMATISED WHITE SPIRIT (CAS: 64742-47-8)

DNEL	Industry - Dermal; Long term : 300 mg/kg/day Industry - Inhalation; Short term : 1500 mg/m ³ Consumer - Dermal; Long term : 300 mg/kg/day Consumer - Inhalation; Long term : 900 mg/m ³ Consumer - Oral; Long term : 300 mg/kg/day No PNEC available. Substance is a hydrocarbon UVCB. Standard tests for this endpoint are intended for single substances and are not appropriate for the risk assessment of this complex substance.
Ingredient comments	WEL = Workplace Exposure Limits
	NEODECANOATE ACID, COBALT SALT (CAS: 27253-31-2)
DNEL	Workers - Inhalation; Long term local effects: 0.2732 mg/m ³ General population - Inhalation; Long term local effects: 0.043 mg/m ³ General population - Oral; Long term systemic effects: 0.0649 mg/kg/day
PNEC	 Fresh water; 0.003 Co mg/ marine water; 0.00236 Co mg/ STP; 0.37 Co mg/ Sediment (Freshwater); 9.5 Co mg/kg/da Sediment (Marinewater); 9.5 Cp mg/kg/da

- Soil; 10.9 Co mg/kg/da

8.2. Exposure controls

Protective equipment

Θ	
Appropriate engineering controls	Provide adequate general and local exhaust ventilation. Observe any occupational exposure limits for the product or ingredients.
Eye/face protection	Wear chemical splash goggles.
Hand protection	To protect hands from chemicals, gloves should comply with European Standards EN388 and 374. As a general principle, exposure should be managed by means other than the provision of protective gloves. Manufacturers' performance data suggest that the optimum glove for use should be: Wear protective gloves made of the following material: Nitrile rubber. Thickness: ≥ 0.31 mm Permeation breakthrough time according to EN374 - class: (1-6) e.g. minimum 480 mins. Caution: The performance of gloves under actual working conditions can be significantly affected by many factors and the information provided according to EN374 may not accord with what is achieved in practice. We recommend that expert professional advice is sought that takes into account of the work processes and working environment applicable for each task where gloves are to be worn.
Other skin and body protection	Wear appropriate clothing to prevent reasonably probable skin contact.
Hygiene measures	No specific hygiene procedures recommended but good personal hygiene practices should always be observed when working with chemical products.
Respiratory protection	Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit. In case of inadequate ventilation use suitable respirator. It is recommended to use respiratory equipment with combination filter, type A2/P2.

SECTION 9: Physical and chemical properties		
9.1. Information on basic physical and chemical properties		
Appearance	Viscous Liquid	
Colour	Various Colours	
Odour	Aromatic	
Odour threshold	Not determined.	
рН	Technically not feasible.	
Melting point	Not determined.	
Initial boiling point and range	Not determined.	
Flash point	38 approx.°C Closed cup.	
Evaporation rate	Not determined.	
Evaporation factor	Not determined.	
Upper/lower flammability or	0.8	
explosive limits		
Other flammability Vapour	Not determined.	
pressure		
Vapour density	Heavier than air	
Relative density	1.1 approx. @ 20°C	
Solubility(ies)	Insoluble in water	
Partition coefficient	Not determined.	
Auto-ignition temperature	Not determined.	
Decomposition Temperature	Not determined.	
Viscosity	4 P (Rotothinner)!@ 20°C	
Explosive properties	Not determined.	
Explosive under the influence of a flame	Not considered to be explosive.	
Oxidising properties	Not determined.	
9.2. Other information		
Volatility	55	
Volatile organic compound	This product contains a maximum VOC content of <499 g/litre.	

SECTION 10: Stability and rea	ctivity
10.1. Reactivity	
Reactivity	There are no known reactivity hazards associated with this product.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures and when used as recommended.
10.3. Possibility of hazardous r	reactions
Possibility of hazardous reactions	Not determined.
10.4. Conditions to avoid	
Conditions to avoid	Avoid heat, flames and other sources of ignition. Avoid contact with the following materials: Acids. Oxidising agents.
10.5. Incompatible materials	
Materials to avoid	Strong alkalis. Strong acids. Strong oxidising agents.
10.6. Hazardous decompositio	n products
Hazardous decomposition products	Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.
SECTION 11: Toxicological inf	ormation
11.1. Information on toxicologic	cal effects
Inhalation	Vapour from this product may be hazardous by inhalation. Vapour may irritate respiratory system/lungs.
Ingestion	Liquid irritates mucous membranes and may cause abdominal pain if swallowed.
Skin contact	Product has a defatting effect on skin. Repeated exposure may cause skin dryness or cracking. May cause allergic contact eczema. Prolonged or repeated exposure may cause severe irritation.
Eye contact	May cause temporary eye irritation.
Acute and chronic health hazards	This product has low toxicity. Only large quantities are likely to have adverse effects on human health.
Route of exposure	Inhalation Skin absorption. Ingestion. Skin and/or eye contact.
Medical considerations	Skin disorders and allergies. Avoid vomiting and stomach flushing because of the risk of aspiration.
Inhalation	Vapour from this product may be hazardous by inhalation. Vapour may irritate respiratory system/lungs.
Ingestion	Liquid irritates mucous membranes and may cause abdominal pain if swallowed.
Skin contact	Product has a defatting effect on skin. Repeated exposure may cause skin dryness or cracking. May cause allergic contact eczema. Prolonged or repeated exposure may cause severe irritation.
Eye contact	May cause temporary eye irritation.
Acute and chronic health hazards	This product has low toxicity. Only large quantities are likely to have adverse effects on human health.
Route of exposure	Inhalation Skin absorption. Ingestion. Skin and/or eye contact.
Medical considerations	Skin disorders and allergies. Avoid vomiting and stomach flushing because of the risk of aspiration.

Specific target organ toxicity - repeated exposure		
	Specific target organ toxicit	y - repeated exposure

STOT - repeated exposure Not available.

Aspiration hazard

Aspiration hazard	Kinematic viscosity <= 20.5 mm2/s.
Inhalation	Vapours may cause drowsiness and dizziness. Central nervous system depression.
Ingestion	Harmful: danger of serious damage to health by prolonged exposure if swallowed.
Skin contact	Product has a defatting effect on skin. May cause allergic contact eczema.
Eye contact	No specific health hazards known.
Route of exposure	Inhalation Dermal

SECTION 12: Ecological information

Ecotoxicity

The product contains substances which are toxic to aquatic organisms and which may cause long term adverse effects in the aquatic environment.

12.1. Toxicity

Ecologica	l information	on ingredients.
-----------	---------------	-----------------

Acute aquatic toxicity

DE-AROMATISED WHITE SPIRIT

Acute toxicity - fish	LC₅₀, 96 hours: >1000 mg/l, Onchorhynchus mykiss (Rainbow trout)
Acute toxicity - aquatic invertebrates	EC ₅₀ , 48 hours: >1000 mg/l, Daphnia magna
Acute toxicity - aquatic plants	EC ₅₀ , 72 hours: >1000 mg/l, Pseudokirchneriella subcapitata
Acute toxicity - microorganisms	EC ₅₀ , : >100 mg/l, Activated sludge
Chronic aquatic toxicity	
Chronic toxicity - fish early life stage	NOEC, 28 days: 0.131 mg/l, Onchorhynchus mykiss (Rainbow trout)
Chronic toxicity - aquatic invertebrates	NOEC, 21 days: 0.23 mg/l, Daphnia magna
sistence and degradability	

12.2. Persistence and degradability

Persistence and degradability The product is not expected to be biodegradable.

Ecological information on ingredients.

DE-AROMATISED WHITE SPIRIT

Persistence and degradability	The product is readily biodegradable.
Phototransformation	Oxidises rapidly by photo-chemical reactions in air
Biodegradation	- 80 Degradation (%): 28 days
Diodegradation	Test - 301F Ready Biodegradability - Manometric Respiratory Test

12.3. Bioaccumulative potential

DE-AROMATISED WHITE SPIRIT

Bioaccumulative	potential	The product contains potentially bioaccumulating substances.	
Partition coefficient	ent	log Pow: 5 - 6.7	
		DE-AROMATISED WHITE SPIRIT	
Mobility		The product contains volatile organic compounds (VOCs) which will evaporate easily from all surfaces. Readily absorbed into soil.	
Adsorption/deso coefficient	rption	Not available.	
Surface tension		24.5 mN/m @ 20°C	
12.5. Results of PBT and vPv	B assessm	rent.	
Results of PBT and vPvB assessment	Results of PBT and vPvB This product does not contain any substances classified as PBT or vPvB.		
Ecological information on ing	redients.		
		DE-AROMATISED WHITE SPIRIT	
Results of PBT a assessment	and vPvB	This substance is not classified as PBT or vPvB according to current EU criteria.	
12.6. Other adverse effects			
Other adverse effects	The produ creation p	ict contains volatile organic compounds (VOCs) which have a photochemical ozone otential.	
Ecological information on ingre	dients.		
		DE-AROMATISED WHITE SPIRIT	
Other adverse effects Not known.			
SECTION 13: Disposal conside	erations		
13.1. Waste treatment methods	S		
General information	Avoid the	spillage or runoff entering drains, sewers or watercourses.	
Disposal methods	-	f waste to licensed waste disposal site in accordance with the requirements of the te Disposal Authority.	
Waste class	hazardous containers supplied o BASED LI applicable residues o	coating, in its liquid state, as supplied, becomes a waste, it is categorised as swaste, with code 08 01 11* (SOLVENT BASED LIQUID WASTE). Part-used s, not drained and/or rigorously scraped out and containing dried residues of the coating, are categorised as hazardous waste, with code 08 01 11* (SOLVENT IQUID WASTE). If mixed with other wastes, the above waste code may not be a. Used containers, drained and/or rigorously scraped out and containing dry of the supplied coating, are categorised as non-hazardous waste, with code 15 01 02 ackaging) or 15 01 04 (metal packaging).	

SECTION 14: Transport information		
General	This product is packed in accordance with the Limited Quantity Provisions of CDGCPL2, ADR and IMDG.	
14.1. UN number		
UN No. (ADR/RID)	1263	
UN No. (IMDG)	1263	
UN No. (ICAO)	1263	
14.2. UN proper shipping name	2	
Proper shipping name (ADR/RID)	PAINT, Contains Low Aromatic White Spirit, Class 3, Packing Group III (38 °C)	
Proper shipping name (IMDG)	PAINT	
Proper shipping name (ICAO)	PAINT	
	PAINT	
Proper shipping name (ADN)		
14.3. Transport hazard class(e	<u>s)</u>	
ADR/RID class	1263	
IMDG class	3	
ICAO class/division	3	
Transport labels		
14.4. Packing group		
ADR/RID packing group	III	
IMDG packing group	III	
ICAO packing group	III	
14.5. Environmental hazards		
Environmentally hazardous sul	bstance/marine pollutant	
No		
14.6. Special precautions for u EmS	ser F-E, S-E	
Tunnel restriction code	Г-Е, S-Е (D/E)	
14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code		

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture	
EU legislation	Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended). Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).
Guidance	Safety Data Sheets for Substances and Preparations.

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

Inventories

EU - EINECS/ELINCS

None of the ingredients are listed or exempt.

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet	 ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road. ADN: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways. RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail. IATA: International Air Transport Association. ICAO: Technical Instructions for the Safe Transport of Dangerous Goods by Air. IMDG: International Maritime Dangerous Goods. CAS: Chemical Abstracts Service. ATE: Acute Toxicity Estimate. LC₅₀: Lethal Concentration to 50 % of a test population. LD₅₀: Lethal Dose to 50% of a test population (Median Lethal Dose). EC₅₀: 50% of maximal Effective Concentration. PBT: Persistent, Bioaccumulative and Toxic substance. vPvB: Very Persistent and Very Bioaccumulative.
Classification abbreviations and acronyms	Acute Tox. = Acute toxicity Aquatic Acute = Hazardous to the aquatic environment (acute) Aquatic Chronic = Hazardous to the aquatic environment (chronic) Asp. Tox. = Aspiration hazard Flam. Liq. = Flammable liquid STOT RE = Specific target organ toxicity-repeated exposure STOT SE = Specific target organ toxicity-single exposure
Training advice Revision comments	Read and follow manufacturer's recommendations. Issued in new format for Reach compliance in accordance with EC 1272/2008 Issued in accordance with Annex II to REACH, as amended by Commission Regulation (EU) No. 2015/830 Addition of EU supplier information
Issued by	Technical Dept. (N.O.)
Revision date	04/06/2019
Revision	1.0
Supersedes date	16/11/2016
SDS number	20237
SDS status	Approved.

Llaword statements in full	H226 Flammable liquid and vapour.
Hazard statements in full	H302 Harmful if swallowed.
	H304 May be fatal if swallowed and enters airways.
	H315 Causes skin irritation.
	H317 May cause an allergic skin reaction.
	H318 Causes serious eye damage.
	H319 Causes serious eye irritation.
	H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. H332 Harmful if inhaled
	H335 May cause respiratory irritation.
	H336 May cause drowsiness or dizziness.
	H361 Suspected of damaging fertility or the unborn child
	H412 Harmful to aquatic life with long lasting effects.
