

### SAFETY DATA SHEET

### 132/Q265 - FLOORPACK - BASE

According to Regulation (EC) No 1907/2006, Annex II, as amended. Commission Regulation (EU) No 2015/830 of 28 May 2015.

SECTION 1: Identification of the substance/mixture and of the company/undertaking			
1.1. Product identifier			
Product name	132/Q265 - FLOORPACK - BASE		
Product number	132/Q265/1 - BASE		
UFI	UFI: 95GP-V25F-6007-MC7X		
1.2. Relevant identified uses o	f the substance or mixture and uses a	dvised against	
Identified uses	BASE FOR TWO COMPONENT Cra	ick and hole filler	
1.3. Details of the supplier of t	he safety data sheet		
Supplier	COO-VAR Lockwood Street Hull HU2 0HN UK +441482328053 (T) +441482219266 (F) info@coo-var.co.uk	TEAL & MACKRILL EU B.V. Queens Towers Deflandlaan 1 1062 EA Amsterdam The Netherlands +31 (0)208 004828 (T) +441482219266 (F) info@coo-var.co.uk	
Contact person	Technical Department -, 08.30 - 16.3	0 hrs Mon - Thurs, 08.30 - 15.00 hrs Fri, as above	
Manufacturer	TEAL & MACKRILL LIMITED LOCKWOOD STREET HULL HU2 0HN +44(0)1482 320194(T) +44(0)1482 219266(F) info@teamac.co.uk		
1.4. Emergency telephone number			
Emergency telephone	+44 (0) 1482 328053 Coo-Var (08.30	) - 16.30 hrs Mon - Thurs, 08.30 - 15.00 hrs Fri)	
SDS No.	10834		
SECTION 2: Hazards identification			
2.1. Classification of the substance or mixture Classification (EC 1272/2008)			
Physical hazards	Not Classified		
Health hazards	Skin Irrit. 2 - H315 Eye Irrit. 2 - H319	Skin Sens. 1 - H317	
Environmental hazards	Aquatic Chronic 3 - H412		

Classification (67/548/EEC or 1999/45/EC)	-	
Human health	The product contains a small amount of sensitising substance. May cause skin sensitisation or allergic reactions in sensitive individuals.	
Physicochemical	When handled correctly, undamaged units represent no danger.	
2.2. Label elements		
Hazard pictograms		
Signal word	Warning	
Hazard statements	H315 Causes skin irritation. H319 Causes serious eye irritation. H317 May cause an allergic skin reaction. H412 Harmful to aquatic life with long lasting effects.	
Precautionary statements	<ul> <li>P102 Keep out of reach of children.</li> <li>P101 If medical advice is needed, have product container or label at hand.</li> <li>P261 Avoid breathing vapour/ spray.</li> <li>P262 Do not get in eyes, on skin, or on clothing.</li> <li>P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.</li> <li>P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing.</li> <li>Rinse skin with water or shower.</li> <li>P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P337+P313 If eye irritation persists: Get medical advice/ attention.</li> <li>P501 Dispose of contents/ container in accordance with national regulations.</li> </ul>	
Supplemental label information	EUH211 Warning! Respirable droplets may be formed when sprayed. Do not breathe spray of mist.	
Contains	FORMALDEHYDE, OLIGOMERIC REACTION PRODUCTS WITH 1-CHLORO-2,3- EPOXYPROPANE AND PHENOL, OXIRANE, MONO [(C12-14- ALKYLOXY)METHYL] DERIVS	
Supplementary precautionary statements	P332+P313 If skin irritation occurs: Get medical advice/ attention. P370+P378 In case of fire: Use alcohol resistant foam, carbon dioxide or dry powder to extinguish. P403+P235 Store in a well-ventilated place. Keep cool.	
2.3. Other hazards		
This product does not contain any substances classified as PRT or vPvR		

This product does not contain any substances classified as PBT or vPvB.

### SECTION 3: Composition/information on ingredients

3.2. Mixtures		
Silica sand fine		60-100%
CAS number: —		
Classification Not Classified	Classification (67/548/EEC or 1999/45/EC) -	

FORMALDEHYDE, OLIGOMERIC REACTION PRODUCTS1-5%WITH 1-CHLORO-2,3-EPOXYPROPANE AND PHENOL1-5%			1-5%
CAS number: 9003-36-5	EC number: 500-006-8	REACH registration number: 01- 2119454392-40-0003	
Classification	Cla	ssification (67/548/EEC or 1999/45/EC)	
Skin Irrit. 2 - H315	Xi;F	R38. N;R51/53. R43.	
Skin Sens. 1 - H317			
Aquatic Chronic 2 - H411			
Titanium Dioxide			1-5%
CAS number: 13463-67-7	EC number: 236-675-5	REACH registration number: 01- 2119489379-17-xxxx	
Classification	Cla	ssification (67/548/EEC or 1999/45/EC)	
Not Classified	-		
OXIRANE, MONO [(C12-14-	ALKYLOXY)METHYL] DERIVS		1-5%
CAS number: 68609-97-2	REACH registration num 2119485289-22-0005	nber: 01-	
Classification	On Classification (67/548/EEC or 1999/45/EC)		
Skin Irrit. 2 - H315		3 Xi;R38	
Skin Sens. 1 - H317			
The Full Text for all R-Phrase	s and Hazard Statements are Display	ed in Section 16.	
Composition comments	The classification as a carcinogen by inhalation applies only to mixtures in powder form containing 1% or more of titanium dioxide which is in the form of or incorporated into particles with an aerodynamic diameter of less than or equal to 10um.		
SECTION 4: First aid measur	es		
4.1. Description of first aid me	asures		
General information	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Never give anything by mouth to an unconscious person.		
Inhalation	Remove affected person from source of contamination. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention if any discomfort continues. Place unconscious person on their side in the recovery position and ensure breathing can take place.		
Ingestion	Give a few small glasses of water or milk to drink. Never give anything by mouth to an unconscious person. Do not induce vomiting. Get medical attention if any discomfort continues.		
Skin contact	Remove affected person from source of contamination. Rinse immediately with plenty of water. Remove contaminated clothing. Get medical attention if irritation persists after washing.		
Eye contact		ater. Remove any contact lenses and open eyelids w 15 minutes. Get medical attention immediately. Con	
<b>10 11</b> 11 1 1 1			

### 4.2. Most important symptoms and effects, both acute and delayed

General information

Get medical attention promptly if symptoms occur after washing.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Notes for the doctor	No specific recommendations. If in doubt, get medical attention promptly.
SECTION 5: Firefighting measu	ures
5.1. Extinguishing media	
Suitable extinguishing media	Non flammable at room temperature, but will burn. Use fire-extinguishing media suitable for the surrounding fire. Extinguish with the following media: Water spray, fog or mist. Foam, carbon dioxide or dry powder.
5.2. Special hazards arising fro	m the substance or mixture
Specific hazards	Toxic gases or vapours.
5.3. Advice for firefighters	
Protective actions during firefighting	Avoid breathing fire gases or vapours. Containers close to fire should be removed or cooled with water.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
SECTION 6: Accidental release	e measures
6.1. Personal precautions, prot	ective equipment and emergency procedures
Personal precautions	Avoid inhalation of vapours and contact with skin and eyes. Provide adequate ventilation. Wear protective clothing as described in Section 8 of this safety data sheet.
6.2. Environmental precautions	<u>i</u>
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground. Contain spillage with sand, earth or other suitable non-combustible material. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.
6.3. Methods and material for c	containment and cleaning up
Methods for cleaning up	Avoid the spillage or runoff entering drains, sewers or watercourses. Absorb in vermiculite, dry sand or earth and place into containers. Collect and place in suitable waste disposal containers and seal securely. For waste disposal, see Section 13.
6.4. Reference to other section	<u>s</u>
Reference to other sections	For personal protection, see Section 8.
SECTION 7: Handling and stor	age
7.1. Precautions for safe handli	ing
Usage precautions	Avoid inhalation of vapours. Avoid spilling. Avoid contact with skin and eyes. Do not eat, drink or smoke when using the product. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. The Manual Handling Operations Regulations may apply to the handling of containers of this product. For products sold by weight refer to the guide net weight indicated on the container. Allowance will have to be made for the immediate packaging to give an approximate gross weight.
7.2. Conditions for safe storage	e, including any incompatibilities

# Storage precautionsStore in tightly closed original container in a dry, cool and well-ventilated place. Store in<br/>closed original container at temperatures between 5°C and 25°C. Protect from freezing and<br/>direct sunlight. Keep containers upright.

#### 7.3. Specific end use(s)

Specific end use(s) The identified uses for this product are detailed in Section 1.2. Usage description Collect and place in suitable waste disposal containers and seal securely. Label the containers containing waste and contaminated materials and remove from the area as soon as possible.

### SECTION 8: Exposure controls/Personal protection

#### 8.1. Control parameters

#### Occupational exposure limits

#### Silica sand fine

Long-term exposure limit (8-hour TWA): WEL 0.4 mg/m3 resp.dust Short-term exposure limit (15-minute): WEL 0.4 mg/m3 resp.dust

### **Titanium Dioxide**

Long-term exposure limit (8-hour TWA): WEL 10 mg/m<sup>3</sup> inhalable dust Long-term exposure limit (8-hour TWA): WEL 4 mg/m<sup>3</sup> respirable dust WEL = Workplace Exposure Limit.

### FORMALDEHYDE, OLIGOMERIC REACTION PRODUCTS WITH 1-CHLORO-2,3-EPOXYPROPANE AND PHENOL (CAS: 9003-36-5)

DNEL	Workers - Inhalation; Long term systemic effects: 29.39 mg/kg Workers - Dermal; Long term systemic effects: 104.15 mg/kg/day General population - Inhalation; Long term systemic effects: 8.7 mg/kg General population - Dermal; Long term systemic effects: 62.5 mg/kg/day General population - Oral; Long term systemic effects: 6.25 mg/kg/day
	Titanium Dioxide (CAS: 13463-67-7)
DNEL	Industry - Inhalation; Long term local effects: 10 mg/m <sup>3</sup> Consumer - Oral; Long term systemic effects: 700 mg/kg/day

#### 8.2. Exposure controls

Protective equipment

Appropriate engineering controls

Personal protection

Eye/face protection

Provide adequate ventilation. Avoid inhalation of vapours. Observe any occupational exposure limits for the product or ingredients.

Unprotected persons should be kept away from treated areas.

Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles.

Hand protection	To protect hands from chemicals, gloves should comply with European Standards EN388 and 374. As a general principle, exposure should be managed by means other than the provision of protective gloves. Manufacturers' performance data suggest that the optimum glove for use should be: Butyl rubber. Thickness: > 0.5 mm Permeation breakthrough time according to EN374 - class: (1-6) e.g. minimum 480 mins. or Nitrile rubber. Thickness: > 0.4 mm Permeation breakthrough time according to EN374 - class: (1-6) e.g. minimum 480 mins. or Nitrile rubber. Thickness: > 0.4 mm Permeation breakthrough time according to EN374 - class: (1-6) e.g. minimum 240 mins. Caution: The performance of gloves under actual working conditions can be significantly affected by many factors and the information provided according to EN374 may not accord with what is achieved in practice. We recommend that expert professional advice is sought that takes into account of the work processes and working environment applicable for each task where gloves are to be worn.
Other skin and body protection	Wear appropriate clothing to prevent reasonably probable skin contact.
Hygiene measures	Use engineering controls to reduce air contamination to permissible exposure level. No specific hygiene procedures recommended but good personal hygiene practices should always be observed when working with chemical products.
Respiratory protection	No specific recommendations. Respiratory protection may be required if excessive airborne contamination occurs.

### SECTION 9: Physical and chemical properties

-		
9.1. Information on basic physical and chemical properties		
Appearance	Granules. Coloured paste.	
Colour	White / off-white.	
Odour	Sweetish.	
Odour threshold	Not determined.	
рН	Technically not feasible.	
Melting point	Not determined.	
Initial boiling point and range	>150°C @ 760 mm Hg	
Evaporation rate	Not determined.	
Evaporation factor	Not determined.	
Other flammability	Not determined.	
Vapour pressure	<0.1 mbar @ °C	
Vapour density	heavier than air	
Relative density	1.12 @ @ 25 C°C	
Solubility(ies)	Immiscible with water	
Partition coefficient	Not determined.	
Auto-ignition temperature	>200°C	
Decomposition Temperature	Not determined.	
Viscosity	90 Pas @ 25 C°C	
Explosive properties	Not determined.	
Explosive under the influence of a flame	Not considered to be explosive.	

92. Other information       0         Volatilie organic compound       This product contains a maximum VOC content of 0 giltre.         SECTION 10: Stability and reactivity         10.1. Readwity         Reactivity       There are no known reactivity hazards associated with this product.         10.2. Chemical stability       There are no known reactivity hazards associated with this product.         10.3. Cossibility of hazardous       There are no known reactivity hazards associated with this product.         10.3. Cossibility of hazardous       There are no known reactivity hazards associated with this product.         10.3. Possibility of hazardous       There are no known reactivity hazards associated with this product.         10.4. Conditions to avoid       Will not occur         reactions       Will not occur         10.4. Conditions to avoid       Not known.         10.5. Incompatible materials       Morona         10.6. Hazardous decomposition       Toducts         products       Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.         SECTION 11: Toxicological effects       Toxicological effects         Toxicological effects       No specific health hazards known.         11.1. Information on toxicological effects       Toxicological effects         Secricol 11: fixediallowed. Ingestion may cause severis	Oxidising properties	Not determined.
Volatile organic compound       This product contains a maximum VOC content of 0 g/litre.         SECTION 10: Stability and results         10.1. Reactivity         Reactivity       There are no known reactivity hazards associated with this product.         10.2. Chemical stability       Stable at normal ambient temperatures and when used as recommended.         10.3. Possibility of hazardous       reactions         Possibility of hazardous       Will not occur         reactions       Will not occur         Conditions to avoid       Not known.         10.4. Conditions to avoid       Strong acids. Alkalis - inorganic. Amines. Mercaptans (thiols).         10.4. Incompatible materials       Not known.         10.4. Conditions to avoid       Strong acids. Alkalis - inorganic. Amines. Mercaptans (thiols).         10.5. Incompatible materials       Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.         SECTION 11: Toxicological iffects       No data recorded.         I11. Information on toxicological effects       No data recorded.         General information       May cause respiratory system irritation.         Inplation       May cause respiratory system irritation.         Inplation       Haurful if swallowed. Ingestion may cause severe irritation of the mouth, the oesophagus and the gazrointestrinal tract.	9.2. Other information

PHENOL

Acute toxicity - oral

	Acute toxicity oral (LD₅₀ mg/kg)	2,100.0
	Species	Rat
	ATE oral (mg/kg)	2,100.0
		Titanium Dioxide
	Acute toxicity - oral	
	Acute toxicity oral (LD <sub>50</sub> mg/kg)	5,100.0
	Species	Rat
	ATE oral (mg/kg)	5,100.0
	Acute toxicity - inhalation	
	Acute toxicity inhalation (LC₅₀ dust/mist mg/l)	6.82
	Species	Rat
	ATE inhalation (dusts/mists mg/l)	6.82
	Skin corrosion/irritation	
	Animal data	Not irritating.
	Serious eye damage/irritation	on
	Serious eye damage/irritation	Not irritating.
	Skin sensitisation	
	Skin sensitisation	Not sensitising.
	Specific target organ toxicit	y - single exposure
	STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.
	Specific target organ toxicit	y - repeated exposure
	STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure.
SECTION 1	2: Ecological information	

### Ecotoxicity

There are no data on the ecotoxicity of this product.

### 12.1. Toxicity

Ecological information on ingredients.

## FORMALDEHYDE, OLIGOMERIC REACTION PRODUCTS WITH 1-CHLORO-2,3-EPOXYPROPANE AND PHENOL

Acute aquatic toxicity	
Acute toxicity - fish	$LC_{50}$ , 96 hours: >100 mg/l, Leuciscus idus (Golden orfe)
Acute toxicity - aquatic invertebrates	LC₀, 96 hours: >100 mg/l, Daphnia magna

#### 12.2. Persistence and degradability

Persistence and degradability	No data available.	
12.3. Bioaccumulative potential		
Bioaccumulative potential	No data available on bioaccumulation.	
Partition coefficient	Not determined.	
12.4. Mobility in soil		
Mobility	The product is non-volatile.	
12.5. Results of PBT and vPvB	assessment	
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.	
12.6. Other adverse effects		
Other adverse effects	Not determined.	
SECTION 13: Disposal conside	erations	
13.1. Waste treatment methods	<u>S</u>	
General information	Avoid the spillage or runoff entering drains, sewers or watercourses. Waste should be treated as controlled waste. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. When handling waste, the safety precautions applying to handling of the product should be considered. DO NOT reuse containers containing residual product without commercial cleaning	
Waste class	When this material, in its liquid state, as supplied, becomes a waste, it is categorised as a hazardous waste, with code 08 01 11* (EPOXY BASED LIQUID WASTE). Part-used containers, not drained and/or rigorously scraped out and containing residues of the supplied material, are categorised as hazardous waste, with code 08 01 11* (EPOXY BASED LIQUID WASTE). Ideally this component should be mixed with the appropriate hardener and allowed to react fully to produce a solid waste. Neutralised empty packages, are categorised as non-hazardous waste, with code 15 01 02(plastic packaging) or 15 01 04 (metal packaging)	
SECTION 14: Transport inform	nation	
General	This product is packed in accordance with the Limited Quantity Provisions of CDGCPL2, ADR and IMDG.	
14.1. UN number		
UN No. (ADR/RID)	3082	
UN No. (IMDG)	3082	
UN No. (ICAO)	3082	
14.2. UN proper shipping name		
Proper shipping name (ADR/RID)	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (contains EPOXY RESIN, Class 9, PG III, MARINE POLLUTANT)	
Proper shipping name (IMDG)	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (contains EPOXY RESIN, Class 9, PG III, MARINE POLLUTANT)	
Proper shipping name (ICAO)	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (contains EPOXY RESIN, Class 9, PG III, MARINE POLLUTANT)	
14.3. Transport hazard class(e	<u>s)</u>	
ADR/RID class	9	

IMDG class	9
ICAO class/division	9

#### Transport labels

### 14.4. Packing group

ADR/RID packing group	III
IMDG packing group	III
ICAO packing group	

#### 14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant

### 14.6. Special precautions for user

EmS F-A S-F

Tunnel restriction code (E)

#### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

### SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislationRegulation (EC) No 1907/2006 of the European Parliament and of the Council of 18<br/>December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of<br/>Chemicals (REACH) (as amended).<br/>Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16<br/>December 2008 on classification, labelling and packaging of substances and mixtures (as<br/>amended).<br/>Commission Regulation (EU) No 2015/830 of 28 May 2015.

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

#### SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet	ATE: Acute Toxicity Estimate. ADR: European Agreement concerning the International Carriage of Dangerous Goods by
	Road.
	CAS: Chemical Abstracts Service. DNEL: Derived No Effect Level.
	GHS: Globally Harmonized System.
	IATA: International Air Transport Association.
	ICAO: Technical Instructions for the Safe Transport of Dangerous Goods by Air.
	IMDG: International Maritime Dangerous Goods. LD₅₀: Lethal Dose to 50% of a test population (Median Lethal Dose).
	PBT: Persistent, Bioaccumulative and Toxic substance.
	PNEC: Predicted No Effect Concentration.
	REACH: Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) No 1907/2006.
	vPvB: Very Persistent and Very Bioaccumulative. EC <sub>50</sub> : 50% of maximal Effective Concentration.
Classification abbreviations	Aquatic Acute = Hazardous to the aquatic environment (acute)
and acronyms	Aquatic Chronic = Hazardous to the aquatic environment (chronic) Asp. Tox. = Aspiration hazard
	Eye Dam. = Serious eye damage
	Eye Irrit. = Eye irritation
	Resp. Sens. = Respiratory sensitisation Skin Corr. = Skin corrosion
	Skin Content = Skin contents
	Skin Sens. = Skin sensitisation
	STOT RE = Specific target organ toxicity-repeated exposure
	STOT SE = Specific target organ toxicity-single exposure
Revision comments	Issued in new format for Reach compliance in accordance with EC 1272/2008 Issued in accordance with Annex II to REACH, as amended by Commission Regulation (EU) No. 2015/830 Addition of EU supplier information
Issued by	Technical Dept. (N.O.)
Revision date	16/12/2021
Revision	6.0
Supersedes date	10/08/2021
SDS number	10834
SDS status	Approved.
