GMO-statement

CCfood® (Calcium chloride Food grade flakes) produced by TETRA Chemicals in Kokkola, Finland, contains no GMO:s, nor are any GMO:s present in the process. Calcium chloride Food grade is produced of purely mineral raw materials (limestone, hydrochloric acid, lime and sodium chloride). No organic, plant or animal based raw materials or process aids are utilised in the production. CCfood® is compliant with Regulation EC 2003/1829 and Regulation EC 2003/1830 to the extent under which it falls under these regulations.

A handwritten signature in blue ink, appearing to read "S. Jansson", is written over a horizontal line.
