How to Use

For maximum safety with minimum effort please read and follow SDS, TDS and label instructions and use the product as directed to get best results. Here are some important factors to consider when using UPVC & Plastic Cladding Paint:

- Thin with T51 Thinners at 20-30%. Apply with conventional spray equipment, applying 2 to 3 coats to reach the desired thickness.
- Make sure you are wearing thick protective clothing including gloves and a mask. Consider the use of a disposable face mask to prevent the inhalation of dust particles.
- Wash hands thoroughly after applying. This product may cause skin irritation for some individuals. If skin irritation occurs, rinse with water, remove and wash contaminated clothing, and consult a physician. This product may cause eye irritation. If eye irritation occurs, flush with water for 15 minutes and call a doctor. If inhaled, remove person to fresh air and keep comfortable for breathing.

Packaging Disposal

Completely emptied packaging should be put in recycling skips or appropriate container. Packaging which are not empty should be disposed of as special refuse. Please consult the relevant waste authority for clarification.
