

ProXL Generation20 Panelwipe is a special degreaser and panelwipe that effectively cuts through contaminants prior to painting. It is carefully formulated to avoid attack on existing paint films and can be used over bare metal and or existing paint surfaces. Available in slow, fast and extra fast evaporation times.

Features and benefits

- Premium degreaser that cuts through contaminants
- For use on bare metal and pre-painted surfaces
- Available in three speeds to cover every application

Directions for use

Three speeds of degreaser are available

Extra fast is for small localised repairs

Fast and Slow is for larger repairs and resprays

Using a lint-free cloth apply the degreaser generously to the area to be painted, then wipe off with a clean and dry cloth to remove all residue

Physical properties
