

**Traditional Floor Wax** is a translucent, easily applied wax finish which revives and refreshes wood floors. It gives a gentle sheen to naturally enhance the beauty of wood, whilst reducing the appearance of micro scratches. Traditional Floor Wax is easy to apply and can be applied on previously treated surfaces to maintain or improve the existing patina.

#### PREPARATION

Before use, test a small inconspicuous area with all products to be used, to ensure a satisfactory final finish and compatibility.

Not recommended on untreated wood floors. For protection against scratch and water resistance, we recommend first sealing the wood with Polyurethane Varnish or Quick Drying Floor Varnish.

For maintenance of coated floors, vacuum or sweep away any loose debris and wipe the floor with a lightly dampened mop if required.

#### APPLICATION

Take a clean, lint-free cloth and lightly apply in the direction of the wood grain where possible. Allow to dry then buff away any excess using another clean, lint-free cloth.

Best results are achieved when the floor wax is applied sparingly and worked into small areas at a time. Buff floor to desired sheen level by hand or using a mechanical polisher.

Over-spill can be cleaned using white spirit.

#### DRYING TIME

10 – 15 minutes at room temperature.

#### COVERAGE

16 m<sup>2</sup> per litre (depending on substrate and method of application).

#### COATS

1 coat

#### RECOMMENDED FOR USE ON

Solid wood/veneered floors and surfaces of fine furniture and cabinet work.

**2.5 L e** 5 015861 004857

### Health, Safety & Environmental Information

#### Danger

Flammable liquid and vapour.

May be fatal if swallowed and enters airways.

Causes skin irritation. May cause an allergic skin reaction.

Causes serious eye irritation. May cause drowsiness or dizziness.

Harmful to aquatic life with long lasting effects.

Keep container tightly closed.

Avoid breathing vapours.

Use only outdoors or in a well-ventilated area.

Wear protective gloves/protective clothing/eye protection/face protection.

IF SWALLOWED: Immediately call a POISON CENTER/doctor.

IF ON SKIN (or hair): Take off immediately all contaminated clothing.

Rinse skin with water/shower.

If skin irritation or rash occurs: Get medical advice/attention.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Do NOT induce vomiting.

Keep out of reach of children. Store locked up.

Store in a well-ventilated place. Keep container tightly closed.

Dispose of this material and its container to hazardous or special waste collection point.
