

Underbody Coating Aerosol

Underbody Coating aerosol is a black bitumen-based material with excellent adhesive properties. It provides an elastic coating highly resistant to corrosive elements and stone chipping. Underbody Coating aerosol is not over-paintable and is applied to the underneath of automotive vehicles.

Part No.	Description	Size
472132	Under Body Aerosol Coating Black	500ml

ADDITIONAL INFORMATION

APPLICATION

Hold the Aerosol can 30 - 40cm from the surface to be sprayed. Do not apply too thickly.

If a heavier finish is required, build up successive coats allowing at least 30 minutes between each coat.

Wipe off excess with white spirit.

highly flexible

**excellent
adhesion properties**

**excellent salt
spray resistance**

**protection against
stone penetration**

non clog nozzle

**produces even
composition**

Basis	Bitumen
Specific gravity	0.763kg/aerosol
Solids	45-48%
Flashpoint	< 0°C
SBP 100/140	5-15 parts
Propane/Butane	30 Parts
Pressure	4.2 bar
Drying time	1 hour (200 my)
Packaging	500ml aerosol
Cleaning	White spirit
VOC content	287g/aerosol
Shelf-life	18 months
