- An extremely versatile one pack primer coating
- Superb build and scratch filling properties
- Offers excellent adhesion to smaller areas of exposed bare metal and old surface finishes
- Ideal for the rectification of rub through areas
- Produces a smooth spray gun like finish - ready to coat after 20 minutes
- Can be coated with the chosen refinish topcoat system (including water based)
- Multi-substrate application
- Suitable for plastics (no need for adhesion promoter)
- Can be degreased with solvent or water based pre-cleaner
- Available in 4 colours
- 500ml can size

Bare metal	Galvanised steel	SMC or plastic	Abraded E-coat	Flexible	Prepared paint finish	Superior high build	Water based compliant
